

Who Ya' Going to Call?

Panel Session with Illicit Discharge Scenarios

Jeremy Talarico, Central Contra Costa Sanitary District

Nicole Kozicki, California Department of Fish and Wildlife

Chris Tougeron, Contra Costa Health Services – Hazardous Materials Programs

Introduction to Panelists

Jeremy Talarico - Environmental Compliance Inspector
Central Contra Costa Sanitary District

- Sanitary sewer agency that performs commercial/industrial storm water inspections under contract with 10 cities in Contra Costa County and responds to illicit discharges for select municipalities.

Nicole Kozicki - Fish and Game Warden
California Department of Fish and Wildlife

- State agency that protects and manages the state's fish and wildlife. Wardens have statewide jurisdiction and their primary functioning is enforcing Fish and Game code. They investigate reports of violations, collect and preserve evidence, write reports, and testify in court.

Chris Tougeron - Hazardous Materials Specialist
Hazardous Materials Programs - Contra Costa Health Services

- County CUPA that performs commercial/industrial storm water inspections & illicit discharge response under contract with County Public Works in unincorporated areas.

Questions to Consider for the Scenarios

- What are the stormwater issues?
- What are corrective actions to implement?
- What level of enforcement to take?
- What other agencies (if any) should be contacted?
