Contra Costa Clean Water Program C.3 Annual Training

Wednesday, June 5th, 2024 | 9:00AM-1:00PM | Hybrid (**Register** for in-person or Zoom)

Lunch and Refreshments will be served

Bella Vista Room at Amador Rancho Center; 1998 Rancho Park Loop Rd., San Ramon, CA 94582

CCCWP will provide reasonable accommodation for persons with disabilities. Please contact Erin Lennon by email at erin.lennon@pw.cccounty.us.

Zoom Link: **https://cccounty-us.zoom.us/j/82665733575?pwd=mYbObcbljEJdMKyMBX7s8oR0xuaY2s.1**

Instructions before the workshop:

- **Please download the IMP calculator ahead of the workshop.**
  - **Link: Updated IMP Calculator, released April 2024 (.zip file)**
- **We recommend that in-person participants bring their laptops. This is not required but is strongly encouraged for those who want to follow along during workshop demonstrations.**

About This Workshop:

Every year, the Contra Costa Clean Water Program (CCCWP) offers a free workshop for land development professionals to better understand the Municipal Regional Stormwater NPDES Permit (ca.gov) (MRP) New Development and Redevelopment requirements (Provision C.3).

This workshop will review Provision C.3 requirements (including road reconstruction vs. road maintenance requirements), will provide an opportunity to discuss implementation considerations, and will include local case studies pertaining to Green Infrastructure (GI).

This year's workshop will also include an overview and update regarding several new/re-development resources, including:

- The 9th Edition CCCWP Stormwater C.3 Guidebook
- The Bay Area Hydrology Model (BAHM) (newly adopted by CCCWP agencies)
- IMP Calculator updates
- GI design details
- an updated CCCWP Development Review Checklist

AGENDA

9:00 – 9:10	**Greeting** *Erin Lennon and Rinta Perkins, CCCWP Staff*
9:10 – 9:25	**MRP 3.0 Background and Provision C.3** *Rachel Kraai, Lotus Water*
