CONTRA COSTA CLEAN WATER PROGRAM

Municipal Regional Stormwater NPDES Permit (MRP)
Provision C.3 Compliance for Land Development Projects

2025 Annual C.3 Workshop (Walnut Creek, Hybrid)

A **free** workshop for land development professionals, including planners, civil engineers, architects, landscape architects, geotechnical engineers, developers, contractors, and municipal staff reviewers, program managers and inspectors.

Monday, April 28, 2025 | 8:30 AM - 12:30 PM

Shadelands Center for Community Arts
111 N. Wiget Lane, Walnut Creek
In-person attendance strongly recommended. Virtual option available.

This workshop provides an opportunity to review site design basics, to review CCCWP's Stormwater C.3 Guidebook and new tools available on our website, to discuss real-life experiences and lessons learned, and to discuss other topics of interest. This year, there will be a panel discussion regarding low- and no-irrigation plant palettes and operation and maintenance (O&M) considerations for green stormwater infrastructure.

Space is limited!
Light Breakfast will be provided
Register by April 21, 2025
