CONTRA COSTA CLEAN WATER PROGRAM

MANAGEMENT COMMITTEE MEETING AGENDA
Wednesday, September 16th, 2026
1:30 PM to 3:30 PM

Join Zoom meeting
https://cccounty-us.zoom.us/j/89108017559?pwd=9R3sJYejDfWJ4YIV3edL5lEXTsfVIB.1
Meeting ID: 891 0801 7559 Passcode: 621919 Dial: +1408-961-3928,,89108017559#

If you require an accommodation to participate in this meeting, please contact Duanne Hernaez by phone at 925-313-2360, by fax at 925-313-2301, or by email at Duanne.Hernaez@pw.cccounty.us.
Providing at least 72 hours notice (three business days) prior to the meeting will help to ensure availability.

VOTING MEMBERS (authorized members on file)	
City of Antioch	Toby Beach/ Carlos Zepeda/Seena Eghtedar-Shenas
City of Brentwood	Brant Wilson (**Vice-Chair)**/ Gail Knight
City of Clayton	Dennis Bozanich
City of Concord	Carlton Thompson/ Bernard Enrile
Contra Costa County	Warren Lai/ Allison Knapp/ Tim Jensen/ Michele Mancuso
CCC Flood Control & Water Conservation District	Allison Knapp/ Tim Jensen/ Michele Mancuso/ Warren Lai
Town of Danville	Elisabeth Fox/ Steve Jones/ Frank Kennedy
City of El Cerrito	Christina Leard/ Stephen Prée /Yvetteh Ortiz
City of Hercules	Jose Pacheco/ Mike Roberts/ Frank Kennedy
City of Lafayette	Matt Luttropp/ Laurie Sucgang
City of Martinez	Khalil Yowakim/ Srinivas Muktevi/ Frank Kennedy
Town of Moraga	Nate Levine/ Frank Kennedy
City of Oakley	Billilee Saengcalern/ Brianne Visaya/ Mostafa Nakhaei
City of Orinda	Nazmieh Huebner/ Ryan O'Kane/ Larry Theis
City of Pinole	Matt Brown/ Frank Kennedy
City of Pittsburg	Jolan Longway / April Chamberlain (**Chair**)
City of Pleasant Hill	Laetitia Galeazzi/ Frank Kennedy
City of Richmond	Bradley Harms/ Robert Armijo/ Avery Stark/ Samantha Carr
City of San Pablo	Amanda Booth/ Itzel Gomez
City of San Ramon	Theresa Peterson/ Rose Daily / Chen-hsuan (Shane) Hsieh/ Roderick Wui
City of Walnut Creek	Lucile Paquette/ Neil Mock/ Smadar Boardman

PROGRAM STAFF AND CONSULTANTS	
Rinta Perkins, Interim Program Manager	Liz Yin, Consultant
Beth Baldwin, Senior Watershed Planner	Duanne Hernaez, Clerical
Andrea Bullock, Administrative Analyst	Kelly O'Hara, Watershed Planner
Erin Lennon, Watershed Planner	

NEXT MANAGEMENT COMMITTEE MEETING
Wednesday, October 21st, 2026

AGENDA

Convene the Public Meeting /Introductions/Announcements/Changes to the Agenda: **1:30**

- October 22, 2026- BAMSC Regional MRP 4.0 Negotiation Progress Meeting will be held in person at the Regional Water Board Offices.

Public Comments: Any member of the public may address the Management Committee on a subject within their jurisdiction and not listed on the agenda. Remarks should not exceed three (3) minutes.

Regional Water Quality Control Board Staff Comments/Reports: **1:32**

Consent Calendar: **1:35**

All matters listed under the CONSENT CALENDAR are considered routine and can be acted on by one motion. There will be no separate discussion of these items unless requested by a member of the Management Committee or a member of the public prior to the time the Management Committee votes on the motion to adopt.

A. APPROVE Management Committee meeting summary (Chair)

1) August 18, 2026 Management Committee Meeting Summary

B. **ACCEPT** the following subcommittee meeting summaries into the Management Committee record: (Chair)

2) Development Committee
   - August 12, 2026
3) Monitoring Committee
   - August 10, 2026
4) Public Information Committee
   - June 2, 2026

Presentations:

A. MRP 4.0 Regional Permit Negotiations Update + ROWD Process (E. Yin/R. Perkins) 1:40
   - Existing Provisions
   - Provision C.14

B. CCCWP PCBs Grant Strategy (R. Perkins/ K. O'Hara) 2:05

C. Final Draft Program Annual Report Attachments (C.11/12, C.19) (K. O'Hara/L. Welsh) 2:15
   - See staff report for more information

D. Final Draft FY 25/26 Program Annual Report and Transmittal Letter (E. Yin) 2:25
   - See staff report for more information

Actions: **2:35**

A. APPROVE the Final Draft of Program Annual Report Attachments (Requires roll-call vote)
B. APPROVE the Final Draft of FY 25/26 Program Annual Report and Transmittal Letter(Requires roll-call vote)
C. AUTHORIZE the CCCWP Interim Program Manager to transmit the Program Annual Report, Transmittal Letter, and its Attachments on behalf of the CCCWP Permittees (Requires roll-call vote)

Update

- Program Manager Updates (R. Perkins) **2:40**
- Regional Grant Updates, as needed (E. Yin)
  - *PCBs Special Studies*

- *Watching Our Watersheds*

Information: None

Closed Session:

- Procurement process of Technical Consultants (A. Bullock) **2:55**
  Receive information on the County procurement process, timeline, and selection committee.

Adjournment: Approximately **3:15** p.m.

Attachments

Consent Items

1. *Management Committee Meeting Summary August 18, 2026*
2. *Development Committee Meeting Summary August 12, 2026*
3. *Monitoring Committee Meeting Summary August 10, 2026 [Groupsite Link will be updated following MonCom meeting on Sept 14, 2026]*
4. *Public Information Committee Meeting Summary June 2, 2026*

Presentation and Action Items

5. *Staff Report on the FY 25/26 Program Annual Report Attachments*
6. *Staff Report on the FY 25/26 Program Annual Report*

CONTRA COSTA CLEAN WATER PROGRAM

MANAGEMENT COMMITTEE MEETING MINUTES

08-19-2026

Attendance:

MUNICIPALITY	ATTENDED	ABSENT
City of Antioch	Seena Eghtedar-Shenas, Toby Beach	
City of Brentwood	Brant Wilson	
City of Clayton		Dennis Bozanich
City of Concord	Carlton Thompson **(Chair)**	
Town of Danville	Frank Kennedy	
City of El Cerrito	Christina Leard	
City of Hercules	Jose Pacheco	
City of Lafayette	Laurie Sucgang	
City of Martinez	Frank Kennedy	
Town of Moraga	Frank Kennedy	
City of Oakley	Brianne Visaya	
City of Orinda	Nazmieh Huebner, Larry Theis	
City of Pinole	Matt Brown	
City of Pittsburg	April Chamberlain **(Vice Chair)**	
City of Pleasant Hill	Laetitia Porta	
City of Richmond	Bradley Harms	
City of San Pablo	Amanda Booth	
City of San Ramon	Theresa Peterson, Rose Daily	
City of Walnut Creek	Lucile Paquette	
Contra Costa County	Michele Mancuso	
CCC Flood Control and Water Conservation District	Tim Jensen	
Program Staff		
Interim Program Manager	Rinta Perkins	
Admin. Svcs Assistant III	Andrea Bullock	
Sr. Watershed Mgmt Planning Spec.	Beth Baldwin	
Watershed Mgmt Planning Spec.	Erin Lennon	
Watershed Mgmt Planning Spec.	Kelly O'Hara	
Clerk	Duanne Hernaez	
Program Consultants:		
	Elizabeth Yin (LWA/CCCWP)	
	Lisa Welsh (Geosyntec)	
	Lisa Austin (Geosyntec)	
Members of the Public/Others/Guests:		

Introductions/Announcements/Changes to Agenda:

- Matt Brown was introduced as the interim Public Works Director for the City of Pinole, stepping in to replace Heba El-Guindy.

Public Comments:

No members of the public were called in.

Regional Water Quality Control Board Staff Comments/Reports:

Regional Board staff did not call in.

Roll call was taken, and the meeting was convened by the Chair at 1:35 pm

Consent Calendar:

A. APPROVE Management Committee meeting summary (Chair)

1) July 15th, 2026 Management Committee Meeting Summary

Frank Kennedy (Moraga) motioned to approve the Management Committee summary; Carlton Thompson (Concord) seconded. There were no abstentions or objections, and the motion was approved.

B. ACCEPT the following subcommittee meeting summaries into the Management Committee record (Chair)

1) Administrative Committee
   - July 7, 2026
2) Development Committee
   - July 8, 2026
3) Monitoring Committee
   - July 13, 2026
4) Municipal Operations Committee
   - May 19, 2026

Lucile Paquette (Walnut Creek) motioned to approve the Management Committee and Subcommittee meeting summaries; Frank Kennedy (Danville) seconded. There were no abstentions or objections, and the motion was approved.

Presentations

1. **MRP 4.0 Regional Permit Negotiations Update + ROWD Process (E. Yin/R. Perkins)**
   - Rinta discussed two recent court cases that will have the potential to impact the reissuance and development of MRP 4.0 Negotiations regarding Provisions A.1, B.2, C.1, and C.14. The Management Committee discussed the court cases.
     - Court Case 1: City and County of San Francisco v. US EPA:
       - The Supreme Court's ruling restricted the use of end-result requirements, specifically receiving water limitations, in certain NPDES permits. However, this legal restriction does not apply to Phase 1 or Municipal Regional Permits.

- Court Case 2: Cities of Sunnyvale and Mountain View v. San Francisco Baykeeper
  - The court ruled in favor of the Baykeeper, finding that both Sunnyvale and Mountain View violated critical MRP provisions by allowing bacteria in stormwater to enter receiving waters.
- Rinta described current meetings, coordination, and information gathering that is being performed at the CCCWP level, as well as the Regional level between BAMSC Program Managers and the named parties of the two court cases. The BAMSC Countywide programs are interested in discussing these items further to identify an approach and draft potential language for MRP 4.0 Negotiations.

o The status of the current status of MRP 4.0 negotiations was provided for C.3, C.6, C.8, C.11, C.12, C.15, and C.19. As these items are draft and not yet resolved, additional detail on this information are available on Groupsite.

Review First Draft FY 25/26 Program Annual Report (E. Yin)

- All annual report resources are uploaded to the Group Site Annual Report File Cabinet Fiscal Year 25/26.
- Draft Program Annual Report Schedule:
  - First draft of the Program Annual Report has been distributed.
  - August 26th: Permittee comments or other feedback are due.
  - September 16th: Final draft will be distributed for committee approval at the Management Committee meeting.
  - September 30th: Permittees must submit their completed annual reports to SMARTS.
- Supplemental Provisions Guidance
  - C.5.e Mobile Business Inventory:
    - There are privacy concerns regarding the Water Board's request to report business owners' names and locations.
    - Recommended guidance text has been issued for the form to copy and paste.
    - Permittees must "just make sure that you can provide your inventory of mobile businesses and enforcement actions upon request by the Water Board."
  - C.10 Trash Load Reduction Maps:
    - No explicit requirement for trash load maps in this year's annual reporting.
    - Permittees can include a link to the live C.10 map in their municipal annual report forms. The Water Board has a specific login to access this map.
  - C2.0 Cost Reporting Drop-in Session:
    - An informal drop-in Q&A session will be scheduled for early September.
    - Karen Ashby will attend to support questions regarding Region 2 and the statewide cost reporting framework.
    - A "When to Meet" link has been shared in the chat and staff report for scheduling.
    - Green Infrastructure (GI) Implementation Guidance:
    - Beth sent an email containing guidance on lessons learned with GI implementations, compiled by Lisa Austin.
    - Permittees can include this verbiage in their agency-specific reports if applicable.

2. **Draft Program Annual Report Attachments (C.11/12, C.19) (K. O'Hara/L. Welsh)**

- C.11 & C.12 Update Highlights
  - 2026 update focuses on annual reporting for Mercury and PCBs control measures.
  - Relies on AGOL inputs for GSI and full trash capture, plus PCB demolition coordination.
  - Action Item: City of Concord to provide applicable demolition structure information.

  - Draft report presented: revisions expected before approval next month.
- Key Metrics (C.11 & C.12)
  - Source Properties: 1,700-acre investigation target already exceeded via composite zone sampling.
  - Goal: Complete remaining sampling by fiscal year end—may eliminate need in MRP4.0.
  - C.11 C12. Metric: Requires treatment on 664 acres (old industrial area equivalent).
  - Metric challenging due to reliance on slow redevelopment projects.
  - Solution: Added "source property identification & abatement" to meet PCB reduction target.
  - Mercury reduction slightly below target but acceptable due to TMDL progress.
  - Action Item: City of Richmond to confirm storm drain cleaning program implementation.
- Report Features
  - Includes municipal maps showing GSI, full trash capture, and old industrial projects.
  - Appendix lists project data: names, addresses, completion year, type, treatment area, PCB/mercury load reductions.
- Fish Risk Reduction Program (C1.1, C.12, C.19)
  - Goal: Reduce public health risk from mercury & PCBs via fish consumption guidance.
  - Outreach led by Integral at marinas, harbors, bait shops, piers, and shoreline areas.
  - Updated multilingual OEHA signs, added QR codes at fish cleaning stations.
  - Program expected to meet target of ~3,000 people/year.
- Annual Mercury Monitoring (C.19)
  - Evaluates methylmercury loads in Marsh Creek, West Delta, and Central Delta.
  - Seven stations sampled: 2 wet-weather, 1 dry-weather events (16 samples).
  - Permit requires 50 samples; program on track.
  - Methylation hotspots still under investigation.
  - Findings: Low levels in West/Central Delta; Marsh Creek exceeds objectives and difficult to meet TMDL.
  - Wet-weather concentrations lower than past years; ratios normal.
- Pyrethroid Control Program (C.19)
  - East County must meet Central Valley pyrethroid TMDL via countywide management program.
  - Activities include IPM implementation, OWOW outreach, and CASQA participation.
  - Monitoring shows pyrethroids likely contribute to suburban creek toxicity—continued controls needed.
- Schedule & Next Steps
  - Draft reports presented in August.
  - Action Item: Comments on C.11/12 and attachments due one week from today.
  - Revised versions to be prepared in early September for committee approval.
  - BAMSC regional projects follow same one-week review timeline before final approval next week.

3. Review Final Draft BAMSC Reports (L. Welsh)

- Source Control Load Reduction Accounting Report
  - Revised MRP3.0 accounting report establishing framework for MRP4.0 load reduction.

- Final draft ready for committee and BAMSC Steering approval; incorporates June 9th comments.
- New accounting method for moderate property controls.
- Updated regional street sediment data and old industrial baseline summary.
- Appendix F documents storm drain line flush/capture methods. PCBs in electrical utilities removed.

- Effectiveness Evaluation: PCBs in Building Demolition
  - Final draft submitted for committee approvals.
  - Estimated PCB load reduction: 0.44–0.52 kg/year (lower than MRP2 estimate).
  - Variance due to fewer applicable buildings (11/year vs. assumed 50).
  - Program still prevents ~2.3 kg of PCBs from being released; average building contains ~5 kg PCBs.
  - Qualitative findings highlight strong tools, guidance, training, and data inventory.
  - Challenges: infrequent demolition, staff turnover, outdated forms, timing issues with notifications.
  - West Valley Communities requested exemption due to zero applicable buildings; committee must decide.
- Climate Change Adaptation Report
  - Regional project identifying climate risks and adaptation strategies.
  - Updated language to "considerations" to avoid new regulatory mandates.
  - Clarifies applicable asset types and emphasizes integrating climate exposure into evolving asset management programs.
  - Includes implementation-level categories (local/regional/countywide).

4. Review Final Draft of BAMSC New and Redevelopment Supplement (C.3.j.iv) (R. Perkins)

- The report is an annual document prepared collaboratively by PHAMSI.
- The report covers processes to promote green infrastructure and can be used by agencies to get ideas for their agency-specific annual reports on how the Contra Costa Clean Water Program promotes green infrastructure on their behalf.
- BAMSC development will continue to meet with the Regional Water Board to discuss GSI and LID language proposed for the new MRP4.0.
- Approval Schedule:
  - The report will be presented to the BAMSC Steering Committee on August 27th, 2026. After regional approval, this report will be included as an attachment to the CCCWP Program Annual Report.

5. Asset Management Plan: RWB Feedback and CCCWP Guidance (B. Baldwin)

- Asset Management Plan (C.21) Feedback
  - Several permittees failed to submit plans or lacked asset inventories.
  - Quality varied widely; some plans lacked required O&M condition assessment processes.
  - Recommended standardization: asset categories, unique identifiers, cost forecasting, and inventory format (San Carlos used as template).
  - C.21 inventory must include trash, LID, and bacteria control assets with required details (location, condition, O&M needs, tributary area).
- C.21 Spreadsheet Tool

- Spreadsheet provided with instructional, C.10, and C.3 tabs; data pulled from AGOL.
- Guidance provided for condition, O&M, tributary area assignment, and unique identifiers.
- Action Item: Cleaned spreadsheets due October 5th for AGOL updates.

- Water Board Requests & Approvals
  - Concerns about last-minute Water Board requests; proposal to request more time.
  - MRP4.0 likely to require unique identifiers. AGOL updates support readiness.
  - Committee approved CCAR and source control items unanimously.

Actions

A. **Approve BAMSC Source Control Load Reduction Accounting for Reasonable Assurance Analysis**
B. **Approve BAMSC Regional Effectiveness Evaluation of the Protocols for Managing PCBs-containing Materials During Building Demolition**
C. **Approve BAMSC Climate Change Adaptation Report for the San Francisco Bay Region**
D. **APPROVE the BAMSC New and Redevelopment Supplement (C.3.j.iv)**

a. Michele Mancuso (CCC) motioned to approve Action Items A – D. Theresa Peterson (San Ramon) seconded, there were not abstentions or objections and the motion was approved.

Updates

- **Program Manager Updates (R. Perkins)**
  - **BAMSC Steering Committee Updates**
    - MRP4 and Cost Impact: Cumulative cost impacts of proposed permit changes are being compiled into a metrics display to demonstrate the overall financial impact on permittees.
    - Streamlining Reporting:
      - MRP3 currently contains duplicative and cumbersome reporting requirements across various sections (e.g., C3, C10, C21).
      - Plans are underway to consolidate C8, C11, and C12 to reduce the reporting burden on permittees.
      - Water quality monitoring questions have arisen due to the extension of MRP3.
      - The BAMSC steering committee website is undergoing a regional project profile update to establish a centralized portal for reporting.
    - Permit Applications Deadline: A critical upcoming deadline is the signatory page of the duly authorized. Advanced notice and reminders will be sent to secure these signatures. Technical contents are currently being drafted. Committee members will review them, and the management committee is expected to approve them starting in November.
  - **Future Grant Opportunities**
    - Long-Term Budget Planning & External Grants:
      - MRP4.0 changes, particularly potential bacteria requirements, will pose significant compliance costs, and SUA revenue is currently capped.

        - Staff will push back on costs using the cumulative cost metrics with the regional board, noting that "MRP4.0 could be a very expensive permit to implement."
    - **Mr. Funnelhead and future school outreach**
        - Mr. Funnelhead outreach program requires new fiscal sponsor due to procurement limits.
- **Regional Grant Updates (E. Yin)**
    - **PCBs Special Studies**
        - The monitoring committee approved the work plan for the Contra Costa Clean Water Program, allowing the FY 25/26 annual county plan to move forward. At the regional level, discussions continue with the EPA regarding QAPP updates for alternative monitoring methods and quality assurance issues.
    - **Watching Our Watersheds**
        - A regional discussion was held on the outcome and implications of the trash OVTA data analysis plan. A draft revised version of the OVTA data analysis is expected to assist with upcoming MRP4.0 negotiations for C.10, but has not yet been received.

Information

- **Cost Reporting Refresher (Virtual) – Registration Required (LWA)**
    - Registration details for the cost report are included in the meeting materials. Attendees are requested to complete the survey, which will be sent out again via Groupsite.

- **AGOL Updates (K. O'Hara)**
    - Next AGOL workgroup meeting Monday, 10:00–11:30 AM.

Other Business

- None

Adjournment: The Chair adjourned the meeting at approximately 3:46 pm

CONTRA COSTA CLEAN WATER PROGRAM

DEVELOPMENT COMMITTEE (DC)
MEETING SUMMARY
Wednesday, August 12th, 2026
1:30 PM-3:30 PM

Zoom Meeting

C.3 Technical Consultant (Black and Veatch)	Yvana Hrovat
C.3 Technical Consultant (Lotus Water)	Katie Pilat
Geosyntec	Lisa Welsh, Emily Meyers, Lisa Austin, Kendi Only

DRAFT

Meeting Summary

1. **Convene Meeting**

   The meeting convened at 1:30 PM.

2. **Announcements and Changes to the Agenda**

   No announcements or changes to the agenda.

3. **Approval of Wednesday July 8th, 2026 DC Meeting Summary**

   Frank Kennedy (Moraga) motioned to approve the previous Development Committee meeting summary, and Jalal Azizi (Antioch) seconded the motion. The motion passed with no objections or abstentions, and the item was approved.

4. **Approval of Final Draft of BAMSC Climate Change Adaptation Report (CCAR)(E. Meyers)**

   Emily Meyers (Geosyntec) presented the final draft CCAR, which is being developed as a BAMSC Regional collaborative project to meet MRP 3 Provision C.21 requirement.

   - The timeline for developing the report—from the draft outline through the first, second, and final drafts—was reviewed..
   - The revised and final draft includes both editorial and content-related updates. Editorial changes address the glossary, references, web links, and supporting resources. Content-related revisions remove prescriptive language, update the executive summary to better align the strategy with the asset, identify the primary lead for implementation, and clarify that design recommendations are future considerations rather than requirements.

- Committee members were reminded that the final draft of the CCAR was sent to them on August 6, along with a request to consider recommending its approval so it could be presented to the Management Committee on August 19 and then to BAMSC for final approval on August 27.
- After the presentation, CCCWP requested a motion to recommend approving the document.

Matt Luttrop (Lafayette) motioned to approve the final draft of the CCAR, and Frank Kennedy (Moraga) seconded the motion. The motion passed with no objections or abstentions, and the item was approved.

See Attachment 1: Attached CCAR slides

5. **CW4A Task Update (L. Austin)**

   Lisa Austin presented the results of the survey that had been sent to the Management Committee and Development Committee requesting them to vote on which projects and how many of them should be further developed using the approximately $200,000 in remaining Task 3 funds. The

survey included 18 project options and three funding distribution options. A total of 9 survey responses were received.

The funding distribution option that received the most votes was to select one project to receive a 30% design and 3-4 projects to receive 10% design.

The voting results for the projects were reviewed.

- Vacant Parcel by Richmond Parkway in Richmond (recommend advancing to 30% design),
- Piper Channel Trash Capture in Oakley (recommend advancing to 10% design)
- Hilltop Mall (private) in Richmond (recommend advancing to 10% design)
- American Park Basin Retrofit in Pittsburgh (recommend advancing to 10% design)
- Geery Road Landscape Retrofit in Pleasant Hill (recommend advancing to 10% design)
- San Pablo Ave Bridge Rehabilitation in Pinole (as backup option)
- Rumrill (private vacant parcel) in Richmond (as backup option).

Next step will be for Geosyntec to contact Permittees outlined above for each respective project, to narrow down to 6 projects for further development.

See Attachment 2: CW4A Slides

6. Approval of the FY 2025/26 BAMSC Regional Supplement for New Development and Redevelopment (B. Baldwin)

Beth reviewed the FY 25/26 BAMSC Regional Supplement for New Development and Redevelopment (Supplement) which relates to MRP 3.0 Provision C.3.j.iv "Participate in Processes to Promote Green Infrastructure". The document is updated annually and requires approval by each County Program's Management Committees and the BAMSC Steering Committee.

The Supplement covers C.3.j.iv-related activities and accomplishments during FY 25/26 such as outcomes of the active Work Groups, BAMSC Development Subcommittee meetings and presentations at conferences and to state and local agencies as well as planned activities for FY 26/27.

After the presentation, CCCWP requested motion to approve the document.

Lucile Paquette (Walnut Creek) motioned to approve the final draft of the BAMSC Regional Supplement. Michelle Giolli (County) seconded the motion. The motion passed with no objections or abstentions, and the item was approved.

7. MRP 4.0 Discussions

- **New schedule:** ROWD due December 31, 2026. To meeting this timeline, the draft ROWD will be presented to the Management Committee at the October meeting and considered for approval at the November meeting.
- **MRP 4 Reissuance Schedule:** Received official revised schedule from San Francisco Regional Water Quality Control Board (Water Board). The administrative draft will be

released in early 2027, with the public workshop in May 2027. The tentative order will be released in late summer with consideration of adoption in October 2027 and an effective date of July 1, 2028.

- **Update on MRP 4 C.3 workgroup meetings:**
  - Meeting #3 on July 14th**:** summarized Meeting #2 action items, discussed C.3.j crediting development (which will be summarized in Meeting #3 notes), and went over upcoming meeting topics: August: Finish C.3.j (LTGSI) discussions; September: cover frontage requirements, new legislation impacts on C.3 requirements, and C.3 impact on housing costs; October: meeting to be added, and November: cover unfinished items, review draft permit language.
  - Meeting # 4 on August 16th: Katie went over C.3.j crediting options in detail by project type, including acreage equivalents for each type (table provided in attached PowerPoint). Key findings from this meeting include:
    - BAMSC proposed 0% increase to C.3.j retrofit targets
    - Water Board proposed C.3.j retrofit targets: 50-60% increase by permittee, 1 ac min (if pursing compliance at the Countywide level).
    - Permittee responses were that the Water Board's assumptions were inaccurate, GI cost inflation needed to be better accounted for, and not allowing carryover disincentives large, cost-effective regional projects and encourages doing the bare minimum until the next permit term.
    - Water Board staff announced that C.3.j credit carryover from MRP3 to MRP4 will be allowed without a cap. However, this decision has not yet been confirmed in writing.
    - CCCWP will distribute a revised C.3.j tracking spreadsheet to provide the most accurate and up-to-date information on progress toward meeting MRP3 C.3.j targets. The data will be used to inform the Water Board of the actual percentage of Permittees meeting their targets and to correct the inaccurate assumption that more than 70% are meeting targets. The spreadsheet will also include space for Permittees to identify challenges in meeting these targets.
    - Need clarification from the Water Board on intended maximum C.3.j credit for regulated projects that treat more than impervious surface than required.
- **Update on MRP 4 C.6:**
  - First meeting is scheduled for Monday, August 17th from 2 – 3:30pm.
  - General topics will include the C.6 trigger, construction site inventory, dewatering discharges, and cross-referencing C.12 PCBs demolition inspections

8. Development Committee Updates

- **Guidance on Completing Sizing Criteria Column of Annual Report**
  - Yvana reviewed the three approaches allowed for meeting for C.3.d sizing. They are volume-based (1.a and 1.b), flow-based (2.a, 2.b, 2.c), or combination flow/volume (3) as well as the types of treatment measures typically corresponding to each. Option 2.c is most commonly used. The methodology for each option was discussed in greater detail, and the SCVURPPP slides that Yvana used to develop much of the

material were shared after the meeting.

See Attachment 3: SCVURPPP Guidance on Sizing Criteria

- **FY 25/26 C.21 Asset Management Reporting**
  - Beth reviewed the C.21 reporting requirements, which must include, at a minimum, the following information for each asset in the inventory: the category or type of water quality control; relevant design details; tributary drainage area; location; condition based on periodic inspections conducted by municipal or contracted staff; and operation and maintenance needs.
  - CCCWP will distribute spreadsheets for stormwater projects and trash capture devices August 12th or 13th
  - A link to the CCCWP FY 25/26 Countywide trash map, with view-only access for the Water Board, will be provided. This is the same map shared with the Water Board in FY 2023/24, updated for the current fiscal year. It was noted that the map does not meet Provision C.21 asset management requirements for trash capture devices, as it does not include asset condition information or operation and maintenance needs.
  - Several Committee members were concerned with Water Board's feedback on Permittees' Asset Management Plan submittals. Concerns include that the Water Board has added elements that go beyond the requirements of Provision C.21, as well as its push for a countywide approach to plans, which is not practical given the diversity of Permittees' systems and procedures used to track and manage assets.
  - The timing of the Water Board's feedback is also problematic, as there is not enough time to incorporate any of it into this year's Provision C.21 implementation reporting.

9. Program Updates

- Draft Annual Report will be presented to Management Committee on August 19th, and final report will be presented on September 16th for approval.
- CCCWP ADA compliance website updates continue.

10. Regional/External Updates

- **July 23, 2026 BAMSC Steering Committee**
  - Discussed ongoing MRP 4 workgroup activities, including coordination on reporting approaches for Provisions C.3, C.10, and C.21, BASMAA website updates, and the status of statewide cost reporting requirements currently under State Water Board review.
  - Reviewed permittee compliance with FY 2024/25 reporting requirements, including Asset Management Plan and cost reporting submittals, and noted that Notices of Violation (NOVs) will be issued to permittees with outstanding required submissions.
- **August 11, 2026 BAMSC Development Subcommittee**
  - Internal Meeting:
    - Discussed outstanding MRP 4 C.3 implementation issues, including alternative compliance eligibility, applicability to existing LID-regulated sites,

and unresolved topics requiring further coordination with the Water Board, such as tree credit caps, credit rollovers, and acreage targets.

- External Meeting:
  - Reviewed efforts to update the Water Board on Permittee progress toward MRP 3 C.3.j acreage goals and discussed support for rolling over MRP 3 acreage credits into MRP 4 without a cap.
  - Provided workgroup updates for each active group.
  - Permittees are pulling together for the Water Board a more current summary of progress meeting MRP 3 C.3.j acreages.

11. Next Meeting Date/Next Steps

The next meeting is on 09/09/26. Action items were emailed to Permittees after the meeting.

12. Adjourn Meeting

The meeting was adjourned at 3:34 PM.

DRAFT

CONTRA COSTA CLEAN WATER PROGRAM

PUBLIC INFORMATION/PARTICIPATION (PIP) COMMITTEE MEETING SUMMARY

Tuesday, June 3, 2026, 9:00 am – 10:30 am

Zoom Meeting

Attendance

PIP Committee Voting Members	Attended
City of Antioch	Absent
City of Brentwood	Vidal Daniels
CCC Flood Control District	Margaret Golden
City of Pittsburg	April Chamberlain
City of Richmond	Bradley Harms
City of San Ramon	Theresa Peterson **(Vice Chair)**
City of Walnut Creek	Lucile Paquette
Program Staff	
Interim Program Manager	Rinta Perkins
Administrative Assistant	Andrea Bullock
Sr. Watershed Mgmt. Planning Spec.	Beth Baldwin
Watershed Mgmt. Planning Spec.	Erin Lennon
Watershed Mgmt. Planning Spec.	Kelly O'Hara
Clerical	Duanne Hernaez
Consultants	
Mr. Funnelhead	Matt Bolender
Stephen Groner Associates (SGA)	Michelle Dissel, Charlotte Bloemsma
Larry Walker Associates	Nicole Wilson

1) Convene Meeting (Vice Chair)

The Vice Chair convened the meeting at 9:00 am

2) Introductions, Announcements, and Changes to Agenda (All)

There were no changes to the agenda. It was noted that the presentation slides for this PIP meeting can be accessed in the Groupsite "Agendas" folder with "Additional Items" in the subfolder name:

- *1. Mr. Funnelhead presentation slides*
- *2. CCCWP PIP main meeting slides*
- *3. SGA CCCWP outreach slides*
- *4. C.15 Firefighting overview slides*

3) Presentation: Mr. Funnelhead Efforts (M. Bolender)

The presentation slides for this portion of the meeting are saved in Groupsite.

- Mr. Funnelhead shared a video highlighting the past 30 years of presentations and art contests to school-age children with stormwater pollution prevention messaging.
- It was noted that the future format of the Mr. Funnelhead presentations may shift, pending discussions with relevant Permittees and Program Staff.

4) Consent Items Approval (Vice Chair)

- April 7th, 2026 PIP Committee meeting Summary

- Theresa Peterson (San Ramon) motioned to approve the April 7th PIP meeting summary. April Chamberlain (Pittsburg) seconded. No one abstained or objected, and the motion passed.

- June and July 2026 Social Media Calendar (Facebook and Instagram)
  - April Chamberlain (Pittsburg) motioned to approve the June and July social media calendar. Theresa Peterson (San Ramon) seconded. There were no abstentions or objections, and the motion was approved.

5) Progress/Updates on SGA Outreach Items (M. Dissel)

The presentation slides for this portion of the meeting are saved in Groupsite.

Updates were presented for the following topics:

- Countywide Baseline Survey Project
- Youth Digital Scavenger Hunt Contest Results
- Newsletter (published May 29, 2026)
- Website Accessibility Remediation

6) Annual Report (AR) Process (Erin)

The presentation slides and links for this portion of the meeting are saved in Groupsite. The following topics were presented:

- AR Process, big picture
- Available Resources on Groupsite, including Permittee schedule and guidance documents
- C.20 Regional Cost Reporting
- AR Forms for C.7 and C.17.b.iii.

7) Old/New Business (Erin)

The presentation slides and links for this portion of the meeting are saved in Groupsite. The following topics were presented:

- BAMSC Firefighting Meeting, May 4, 2026
- Storm drain inlet marker ordering – Unincorporated County is proceeding with placing a bulk order of storm drain inlet markers for MRP Provision C.2. This is relevant to both MOC and PIP.
- Fact sheet/brochure for roof cleaning
  - Insurance companies began requiring roof cleaning for homeowners
  - MOC developed draft text for a fact sheet, which PIP can refine in the next FY.
  - This was a topic included on the C.4/C.5 Workshop – 60 people attended
- CA Dept. of Pesticide Regulation (DPR) news – translation of materials
- 8/18/26 is the 1st meeting of FY 26/27 – Chair/Vice Chair selection and Workplan to be discussed
- Reminders
  - CCCWP Events Submission form (link in the slides)
  - CCCWP Tabling Kit, diorama, and prize materials are available for Permittees to check out.
  - New PIP meeting schedule in FY 26/27: 3rd Tuesdays, 10am-noon (2 hours), even months.

8) Next Meeting/Action Items (Vice Chair)

Action Items were included in the main meeting presentation slides, saved in Groupsite.

9) Adjournment (Vice Chair)

The meeting adjourned at 10:34 AM.

CONTRA COSTA CLEAN WATER PROGRAM

Date: September 16, 2026

To: Management Committee

From: Kelly O'Hara (CCCWP), Watershed Planner

Subject: Approve the Final Draft of C.11/12/19 Program Annual Report Attachments due with the 2026 CCCWP Annual Report submittal to the Regional Water Board

---

Recommendation:

Approve the following C.11/12/19 Annual Report attachments and authorize submittal by the Program to the Regional Water Board in its Annual Report by the required deadline of September 20, 2026:

- Mercury and PCBs Control Measures – Update 2026
- Bay Area Municipal Stormwater Collaborative (BAMSC) Source Control Load Reduction Accounting for Reasonable Assurance Analysis
- Bay Area Municipal Stormwater Collaborative (BAMSC) Regional Effectiveness Evaluation of the Protocols for Managing PCBs-Containing Materials During Building Demolition
- Fish Risk Reduction Program for Mercury and PCBs: 2026 Status Report and Effectiveness Evaluation
- 2026 Annual Mercury Monitoring Report
- Pyrethroid Control Program: 2026 Annual Progress Report

Background:

Permit Provision C.22 of the National Pollutant Discharge Elimination System (NPDES) Permit No. CAS612008 (R2-2022-018), (hereafter MRP 3.0) issued by the San Francisco Bay Regional Water Quality Control Board (SFBRWQCB), requires Permittees to submit an Annual Report by September 30 of each year. Each Annual Report shall report on the previous fiscal year beginning July 1 and ending June 30. In accordance with Provision C.19 of MRP 3.0, relevant portions of the FY 2025/26 Annual Report must also be submitted to the Central Valley Regional Water Quality Control Board on behalf of East County Permittees.

MRP 3.0 outlines the annual reporting requirements in detail. Many of the mandated permit activities are conducted collectively at the countywide, region-

wide, or statewide level. These activities are referred to as "Group Activities." The CCCWP, BAMSC, and CASQA prepare reports on these activities on behalf of all Permittees.

In 2025, the SFRWQCB notified a new feature of the SMARTs platform, allowing countywide stormwater programs to submit countywide and regional annual reports on behalf of their Permittees. At its September 1st meeting, the Administrative Committee directed the Interim Program Manager, as a Duly Authorized Representative (DAR), to submit the CCCWP FY 2025/26 Group Activities Annual Report directly into SMARTs. As such, the CCCWP is submitting the following Annual Report Attachement documents to you in accordance with Provisions C.11, C.12, and C.19 of MRP 3.0:

The first drafts of the CCCWP C.11/12/19 FY 2025/26 Annual Report Attachments were reviewed by the Monitoring Committee between July 27 and August 10. The Monitoring Committee's comments were incorporated into the revised drafts distributed to the Management Committee on August 13 for review and presented at the August 19 Management Committee meeting.

A notable revision to the Mercury and PCBs Control Measure Report between the revised and final draft versions was that the City of Richmond provided four years of storm drain line cleaning data. The actual length of pipe cleaned since the beginning of the permit term was lower than the assumed value. As a result, CCCWP does not currently meet the C.11/12.c permit term requirement of implementing treatment controls to reduce PCBs by 121 grams/year. However, CCCWP is planning to meet this requirement by the end of the permit term.

- **CCCWP C.11/12/19 FY 2025/26 Annual Report Attachments:** Compliance activities conducted collectively as a group by all 21 Contra Costa Permittees
    a. Mercury and PCBs Control Measure Report – 2026 Update
    b. Fish Risk Reduction Program for Mercury and PCBs: 2026 Status Report and Effectiveness Evaluation
    c. 2026 Annual Mercury Monitoring Report
    d. Pyrethroid Control Program: 2026 Annual Progress Report

- **C.11/12 Regional Reports:** These reports document compliance activities conducted regionally in coordination with Bay Area Municipal Stormwater Collaborative (BAMSC). These reports were finalized and approved by the BAMSC Steering Committee at their August meeting. In FY 2025/26, the following regional reports were prepared for the Annual Report:
    a. *BAMSC Source Control Load Reduction Accounting for Reasonable Assurance Analysis;*
    b. *BAMSC Regional Effectiveness Evaluation of the Protocols for*

Fiscal Impact:

Approving the CCCWP C.11/12/19 Fiscal Year 2025/26 Annual Report Attachments has no fiscal impact.

Attachments:

CONTRA COSTA CLEAN WATER PROGRAM

Date: September 16, 2026

To: Management Committee

From: Elizabeth Yin, Consultant

Subject: FY 25/26 Annual Report: Annual Report, Appendix, and Transmittal Letters

---

Recommendation:

- Approve the *Contra Costa Clean Water Program (CCCWP) Fiscal Year (FY) 2025/26 Annual Report, Regional/Statewide Supplemental Reports,* and *the Annual Report Transmittal Letters.*
- Authorize the Interim Program Manager as the Authorized Representative to transmit the final CCCWP FY 2025/26 Annual Report to Permittees, directly into the SMARTs on behalf of the Contra Costa Permittee, and to the Region 5 Water Board.

Overview:

Permit Provision C.22 of the National Pollutant Discharge Elimination System (NPDES) Permit No. CAS612008 (R2-2022-018), (hereafter MRP 3.0) issued by the San Francisco Bay Regional Water Quality Control Board (SFBRWQCB), requires Permittees to submit an Annual Report by September 30 of each year. Each Annual Report shall report on the previous fiscal year beginning July 1 and ending June 30. In accordance with Provision C.19 of MRP 3.0, relevant portions of the FY 2025/26 Annual Report must also be submitted to the Central Valley Regional Water Quality Control Board on behalf of East County Permittees.

MRP 3.0 outlines the annual reporting requirements in detail. Many of the mandated permit activities are conducted collectively at the countywide, region-wide, or statewide level. These activities are referred to as "Group Activities." The CCCWP, BAMSC, and CASQA prepare reports on these activities on behalf of all Permittees.

In 2021, the SFBRWQCB notified CCCWP that Annual Reports were to be submitted through the Stormwater Multiple Application and Report Tracking System (SMARTS) electronic submittal platform. The Central Valley Regional Water Quality Control Board concurred with this submittal process for the East County Permittees but requested notification via email when the report is submitted. In late August 2025, the SFRWQCB notified a new feature of the

SMARTs platform, allowing countywide stormwater programs to submit countywide and regional annual reports on behalf of their Permittees.

The first draft of CCCWP FY 2025/26 Annual Report was distributed to the Management Committee on August 10 for review. Comments received from Permittees were incorporated into the final draft of the CCCWP FY 2025/26. The CCCWP is submitting the following Annual Report documents to you in accordance with Provision C.19 and C.22 of MRP 3.0:

- **CCCWP FY 2025/26 Annual Report and Attachments:** Compliance activities conducted collectively as a group by all 21 Contra Costa Permittees

- **Regional/Statewide Supplemental Reports:** These reports document compliance activities conducted statewide in coordination with the California Stormwater Quality Association (CASQA). These reports were finalized and approved by the BAMSC Steering Committee and the CASQA Board of Directors, respectively. In FY 2025/26, the following regional and statewide supplemental reports were prepared for the Annual Report:
    a. *CASQA, 2026 Pesticides Annual Report; and*
    b. *CASQA 2026 Our Water Our World Annual Report.*

For the Management Committee's review, attached is the CCCWP FY 2025/26 Annual Report (Part Two of the total annual report), which documents the activities conducted or coordinated collectively by the CCCWP for MRP 3.0 Provisions C.2, C.3, C.4, C.5, C.6, C.7, C.8, C.9, C.10, C.11, C.12, C.13, C.15, C.17, C.19, C.20, and C.21. The report includes a list of attachments, tables, acronyms, an introductory section that highlights some of the key CCCWP activities in FY 2025/26, a discussion of COVID-19 impacts on permit compliance, a summary of the activities performed under each of the above-listed Provisions, as well as the Statewide Supplemental Reports.

Each individual permittee will submit the FY 2025/26 Individual Municipal Annual Reports (Part One of the total annual report) via the SMARTS electronic submittal platform. The Individual Municipal Annual Reports are not included in this action item.

CCCWP staff recommends that the Management Committee authorize the Interim Program Manager as the Duly Authorized Representative and approve the CCCWP Fiscal Year 2025/26 Annual Report and the Regional/ Statewide Supplemental Reports.

Fiscal Impact:

Approving the CCCWP Fiscal Year 2025/26 Annual Report and the Regional/Statewide Supplemental Reports has no fiscal impact.

Attachments:

1. *CCCWP FY 2025/26 Annual Report and Attachments (Groupsite Link)*
2. *FY 2025/26 Annual Report Transmittal Letter to Region 2 (Groupsite Link)*
3. *FY 2025/26 Annual Report Transmittal Letter to Region 5 (Groupsite Link)*
